Transcript for STEMculture Season 2 Trailer

Released August 21, 2019

STEMculture Podcast 0:07

[Intro music]

Zach 0:15

Season two STEMculture Podcast will be released through the fall semester and we have some kick ass stuff planned for this season.

Will 0:21

The first series of the season is all about back to school. We will discuss how to set yourself up for success if you're in high school or undergrad and you're interested in pursuing a career in STEM, then how to apply for graduate school. And finally, how to hit the ground running your first year of graduate school.

Dani 0:39

We have some great inSTEM episodes for this season, changing the narrative of STEM with Miguel A. Lopez Perez, and Latina shark biologist Melissa Christina Marquez. We also have some great season one follow up interviews coming with Dr. Katie Wedemeyer-Strombel on graduate school culture and Dr. Michelle Dionne Thompson on writing and editing.

Moncie 0:58

We are on all of the panel podcasting platforms. Please subscribe so you never miss an episode. You can also find STEMculture Podcast at STEMculturePodcast.com or on Twitter, Facebook or Instagram as STEMculture (one word) podcast.
